Technical Fact Sheet SJ2016-FS2

2016 St. Johns River Water Management District Annual Utility Rate Survey

Introduction

This survey covers utility rates currently in effect from October 1, 2015, through September 30, 2016, for the cities and counties within the St. Johns River Water Management District (SJRWMD).

The current survey includes 121 systems or subsystems that supply 84% of public supply water needs and serve 92% of the population within the boundaries of the SJRWMD. In order to be included in the survey, a water supply system needed to satisfy one or more the following criteria:

- Permitted capacity of at least 100,000 gallons per day
- Rate structure information is publicly available
- Water and sewer charges needed to be charged explicitly and not be included in the lot rent (e.g., most RV parks)

Sources:

- For private, municipal and county systems, SJRWMD visited the respective website and where necessary (e.g., "no explicit adoption rate," "rate structures in effect for two years or more") verified rate structures via telephone.
- For private utilities regulated by the Public Service Commission, SJRWMD relied on the 2014 Comparative Rate Statistics:
http://www.psc.state.fl.us/publications/pdf/general/comprate/2014comparative_rate_report.pdf
- For utilities owned by the Florida Governmental Utility Authority, current rates are posted here: <http://fgua.com/customers/rates-and-fees/current-rates/>

For more information, please contact Yassert Gonzalez at ygonzalez@sjrwmd.com or 386-643-1925.

SJRWMD staff may find Excel files on an internal server here: <H:\rm\ygonzalez\Water Rates\Local Rates 2015-2016>.

2016 St. Johns River Water Management District Annual Utility Rate Survey

Source documents for the rate data contained in this file are stored internally here:

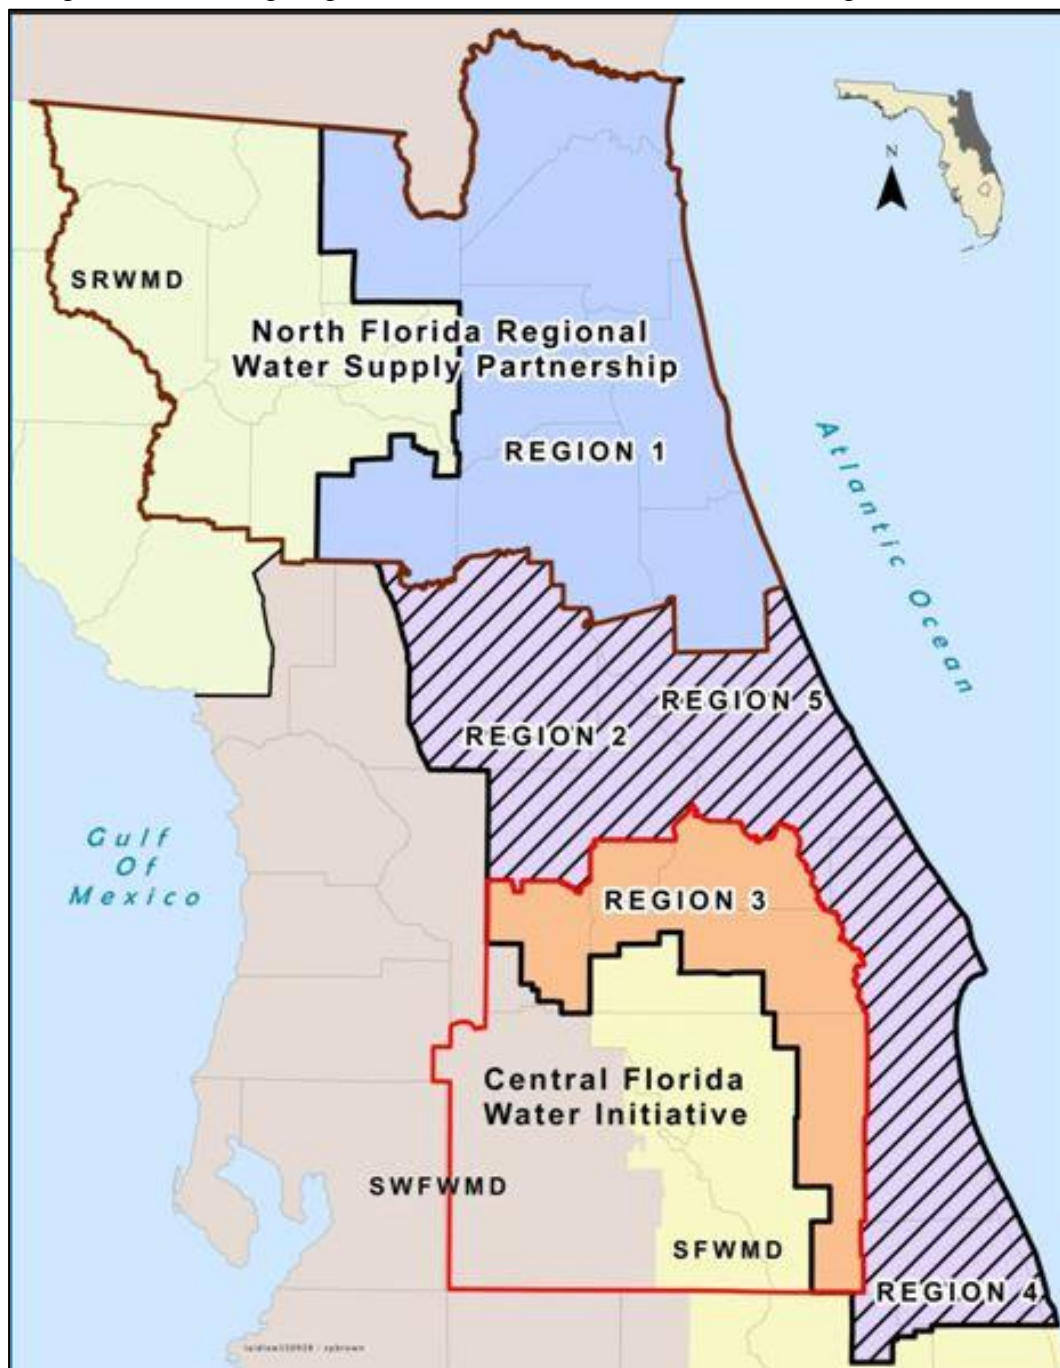

<H:\rm\ygonzalez\Water Rates\Local Rates 2015-2016\Resolutions\>.

General notes for this report:

- Region 1 includes Alachua, Baker, Bradford, Clay, Duval, Flagler, Nassau, Putnam and St. Johns counties (SJRWMD portions).
- Region 2 includes northern Lake and Marion counties (SJRWMD portions).
- Region 3 includes southern Lake, Orange, Osceola and Seminole counties (SJRWMD portions).
- Region 4 includes Brevard, Indian River and Okeechobee counties (SJRWMD portions).
- Region 5 includes Volusia County.
- NFRWSP = North Florida Regional Water Supply Plan. Joint partnership with the Suwannee River Water Management District that encompasses Region 1 of SJRWMD.
- CSEC RWSP = Central Springs and East Coast Regional Water Supply Plan. CSEC RWSP encompasses Regions 2, 4 and 5 of SJRWMD.
- CFWI RWSP = Central Florida Water Initiative Regional Water Supply Plan. Joint partnership with the South Florida and Southwest Florida water management districts that encompasses Region 3 of SJRWMD.

1. Average Monthly Bills and Water Rates by Planning Region

Figure 1. Planning Regions in the St. Johns River Water Management District

Average Residential Water Bills based on water rates effective through September 2016.

4. Monthly Residential Water and Sewer Bills and Rates

Monthly Residential Water and Sewer Bills and Rates (excluded utilities not offering sewer service). Note: Average combined water/sewer rate per thousand gallons may be lower at higher volumes because of sewer caps. Most utilities stop charging the sewer rates per thousand gallons after 10,000 gallons.

2016 St. Johns River Water Management District Annual Utility Rate Survey

Monthly Residential Water and Sewer Bills and Rates (excluded utilities not offering sewer service). Note: Average combined water/sewer rate per thousand gallons may be lower at higher volumes because of sewer caps. Most utilities stop charging the sewer rates per thousand gallons after 10,000 gallons.

6. Monthly Commercial Water and Sewer Bills and Rates

Monthly Commercial Water and Sewer Bills and Rates (excluded utilities not offering sewer service to commercial accounts). Note: Average combined water/sewer rate per thousand gallons may be lower at higher volumes because of sewer caps. Most utilities stop charging the sewer rates per thousand gallons after 10,000 gallons.

2016 St. Johns River Water Management District Annual Utility Rate Survey

Monthly Commercial Water and Sewer Bills and Rates (excluded utilities not offering sewer service to commercial accounts). Note: Average combined water/sewer rate per thousand gallons may be lower at higher volumes because of sewer caps. Most utilities stop charging the sewer rates per thousand gallons after 10,000 gallons.
