**Technical Fact Sheet SJ2017-FS1**

# **2017 St. Johns River Water Management District Annual Utility Rate Survey**

## **Introduction**

This survey covers utility rates currently in effect from October 1, 2016, through September 30, 2017, for the cities and counties within the St. Johns River Water Management District (SJRWMD).

The current survey includes 121 systems or subsystems that supply 84% of public supply water needs and serve 92% of the population within the boundaries of SJRWMD. The number of utilities surveyed in each table changes, depending on how rates and bills are structured (e.g., there are fewer utilities that charge for both water and sewer than water alone). To be included in the survey, a water supply system needed to satisfy one or more the following criteria:

- Rate structure information is publicly available; or
- Water and sewer charges were charged explicitly and were not included in the lot rent (e.g., most RV parks)

### Sources:

- For private, municipal and county systems, SJRWMD visited the respective website and where necessary, (e.g., “no explicit adoption rate,” “rate structures in effect for two years or more”) verified rate structures via telephone.
- For private utilities regulated by the Public Service Commission, SJRWMD relied on the 2014 Comparative Rate Statistics:  
<http://www.psc.state.fl.us/Files/PDF/Publications/Reports/General/Comparative/December%2031,%202015.pdf>
- For utilities owned by the Florida Governmental Utility Authority, current rates are posted here: <http://fgua.com/customers/rates-and-fees/current-rates/>

For more information, please contact Yassert Gonzalez at [ygonzalez@sjrwmd.com](mailto:ygonzalez@sjrwmd.com) or 386-643-1925.

SJRWMD staff may find Excel files on an internal server here: <H:\rm\ygonzalez\Water Rates\Local Rates 2016-2017>.

## 2017 St. Johns River Water Management District Annual Utility Rate Survey

Source documents for the rate data contained in this file are stored internally here:

<H:\rm\ygonzalez\Water Rates\Local Rates 2016-2017\Resolutions\>.

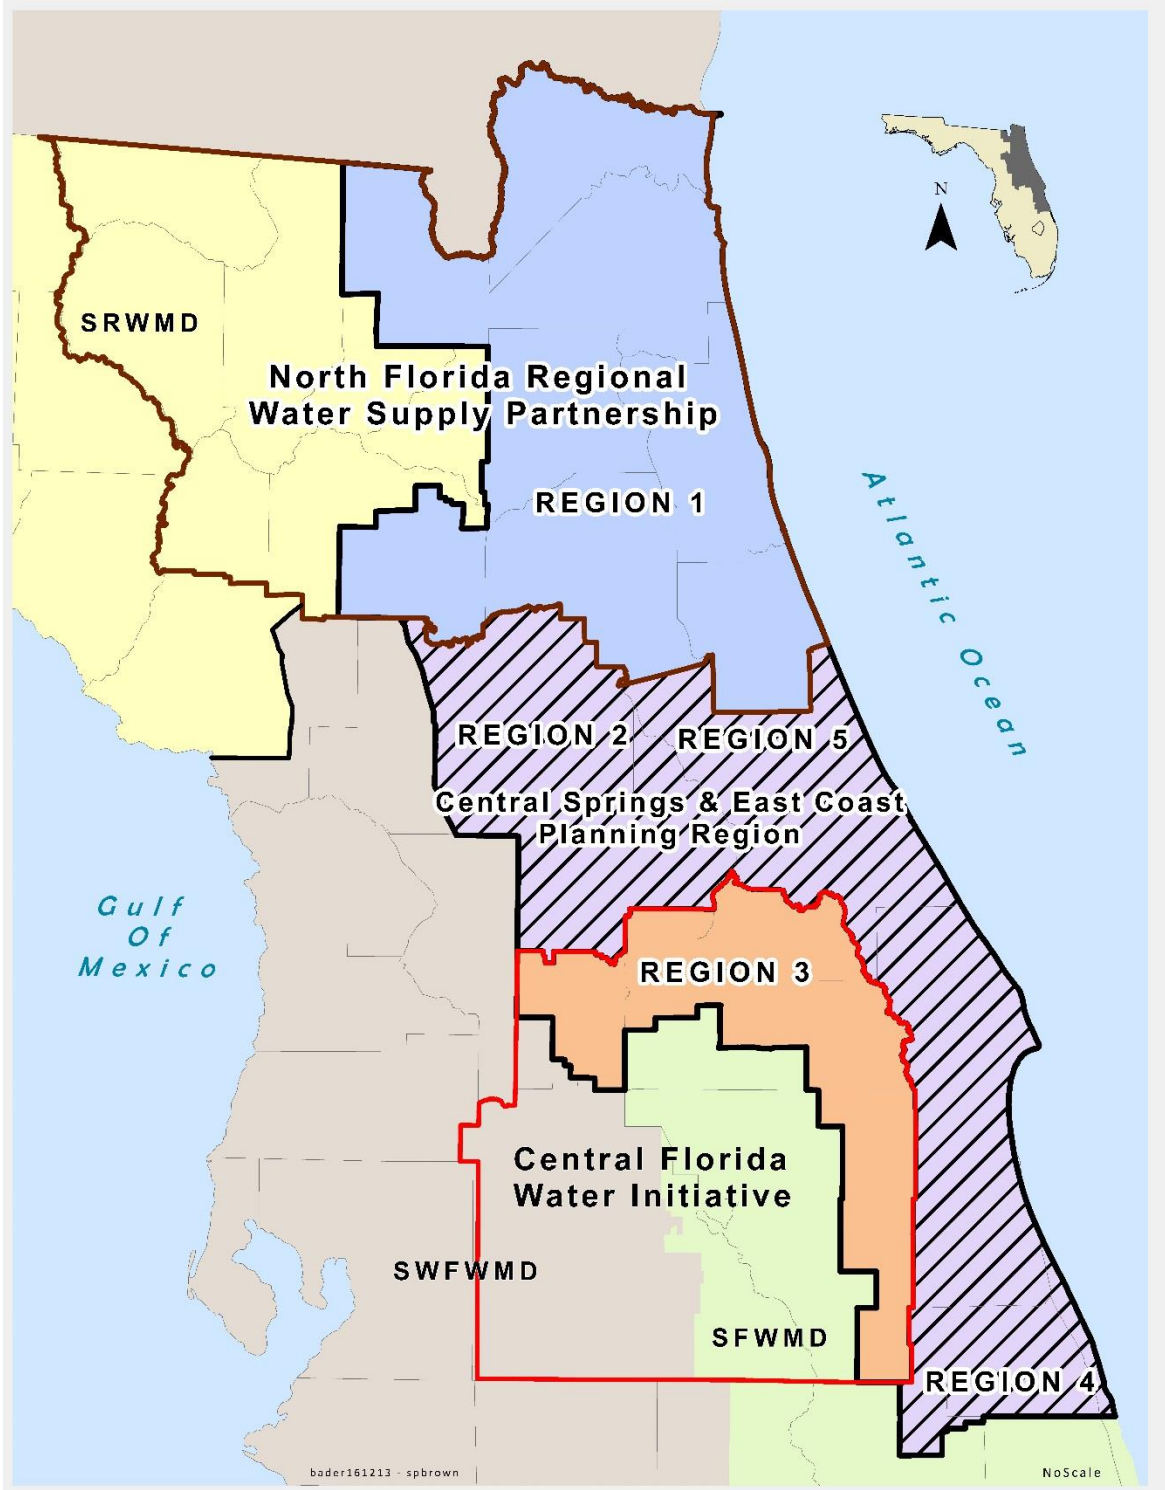

General notes for this report:

While there are five regions identified for data reporting purposes in SJRWMD, there are three main areas for regional water supply planning (Figure 1).

- Region 1 includes Alachua, Baker, Bradford, Clay, Duval, Flagler, Nassau, Putnam and St. Johns counties (SJRWMD portions).
- Region 2 includes northern Lake and Marion counties (SJRWMD portions).
- Region 3 includes southern Lake, Orange, Osceola and Seminole counties (SJRWMD portions).
- Region 4 includes Brevard, Indian River and Okeechobee counties (SJRWMD portions).
- Region 5 includes Volusia County.
- NFRWSP = North Florida Regional Water Supply Plan. Joint partnership with the Suwannee River Water Management District that encompasses Region 1 of SJRWMD.
- CSEC RWSP = Central Springs and East Coast Regional Water Supply Plan. CSEC RWSP encompasses Regions 2, 4 and 5 of SJRWMD.
- CFWI RWSP = Central Florida Water Initiative Regional Water Supply Plan. Joint partnership with the South Florida and Southwest Florida water management districts that encompasses Region 3 of SJRWMD.

## 1. Average Monthly Bills and Water Rates by Data Reporting Region

Figure 1. Data Reporting Regions and Regional Water Supply Plan Areas in the St. Johns River Water Management District

2017 St. Johns River Water Management District Annual Utility Rate Survey

Average Residential Water Bills based on water rates effective through September 2017.

## **4. Monthly Residential Water and Sewer Bills and Rates**

2017 St. Johns River Water Management District Annual Utility Rate Survey

**Monthly Residential Water and Sewer Bills and Rates (excluded utilities not offering sewer service).** Notes: Average combined water/sewer rate per thousand gallons may be lower at higher volumes because of sewer caps. Most utilities stop charging the sewer rates per thousand gallons after 10,000 gallons. N/A = Not applicable.

2017 St. Johns River Water Management District Annual Utility Rate Survey

**Monthly Residential Water and Sewer Bills and Rates (excluded utilities not offering sewer service).** Notes: Average combined water/sewer rate per thousand gallons may be lower at higher volumes because of sewer caps. Most utilities stop charging the sewer rates per thousand gallons after 10,000 gallons. N/A = Not applicable.

2017 St. Johns River Water Management District Annual Utility Rate Survey

**Monthly Residential Water and Sewer Bills and Rates (excluded utilities not offering sewer service).** Notes: Average combined water/sewer rate per thousand gallons may be lower at higher volumes because of sewer caps. Most utilities stop charging the sewer rates per thousand gallons after 10,000 gallons. N/A = Not applicable.

## **6. Monthly Commercial Water and Sewer Bills and Rates**

2017 St. Johns River Water Management District Annual Utility Rate Survey

**Monthly Commercial Water and Sewer Bills and Rates (excluded utilities not offering sewer service to commercial accounts).** Notes: Average combined water/sewer rate per thousand gallons may be lower at higher volumes because of sewer caps. Most utilities stop charging the sewer rates per thousand gallons after 10,000 gallons. N/A = Not applicable.

2017 St. Johns River Water Management District Annual Utility Rate Survey

**Monthly Commercial Water and Sewer Bills and Rates (excluded utilities not offering sewer service to commercial accounts).** Notes: Average combined water/sewer rate per thousand gallons may be lower at higher volumes because of sewer caps. Most utilities stop charging the sewer rates per thousand gallons after 10,000 gallons. N/A = Not applicable.
