Technical Publication SJ 85-7; Supplement Data

Annual Water Use Survey: 1984

by

Richard Marella
Water Resource Specialist

Department of Water Resources
St. Johns River Water Management District

P.O. Box 1429

Palatka, Florida

August 1985

PURPOSE

The purpose of this supplement is to detail information regarding public and industrial water users throughout the District. This supplement complements Technical Publication SJ 85-7 "Annual Water Use Survey - 1984" by showing the detailed data for individual water users on a site specific basis.

Information in Tab 1 shows pumpage by individual public and private utilities which includes GPCD (gallons per capita day), population served, and high and low month. Pumpage for individual industries, institutions, and thermoelectric power plants is shown in Tab 2 and includes high and low month and type of use. Individual monthly pumpage is shown by each facility within the utility or industry in Tab 3. Individual monthly pumpage is also shown by water source (ground or surface and fresh or saline) within the utility or industry in Tab 4. Pumpage data for Tabs 3 and 4 is shown in million gallons.

TABLE OF CONTENTS

Individual Public Utility Water Use by County.....Tab 1
Individual Industrial, Institutional, and
 Thermoelectric Water Use by County.....Tab 2
Monthly Water Use by Facility.....Tab 3
Monthly Water Use by Water Source.....Tab 4
